Approval of Minutes December 14, 2015 Meeting
Minutes were approved as written.

Announcements
Laura Bilbro-Berry was thanked for chairing the December meeting.

The Office of Teacher Education has undergone a name change. It is now the Office of Educator Preparation. Dr. Covington's title is Executive Director of Undergraduate Affairs and Educator Preparation.

Pamela Hopkins, Director Speech Communication Center sent an email regarding the services of ECU’s Speech Communication Center. She asked that instructors consider adding a statement regarding their services to their course syllabi. The center helps students with their verbal communication needs, speaking anxiety, and those wanting to improve their professional communication skills. They also provide workshops for classes covering these needs.

Standing Updates on Assessment, Accreditation and Data Management
Ellen Dobson, Interim Director of AADM, announced that their office is now the Office of Assessment, Accreditation and Data Management.

Blueprint changes are due at NCDPI no later than Feb 15, 2016. This is primarily for undergraduate programs, but masters programs are also included. Program coordinators should review their blueprints and make plans to implement Evidence 7, Home, School and Community Partnership, which is program specific. Look at Evidence 1, which demonstrates breadth of content knowledge in the specialty area and Evidence 2, which demonstrates the depth of understanding. If program areas are continually subbing courses listed in the current Blueprint, these courses should be changed. Contact Dr. Dobson with questions.

Chairs and UACs will meet with OAADM on Feb. 5 to discuss possible volunteers for the curriculum mapping project IPAR has initiated, which will be collected in Tracdat. There are two due dates depending on the volunteer round chosen, Round 1 is due April 15, and Round 2 is due Dec. 15. More information should be forthcoming from your Chairs and/or UACs. This timeline may be different for programs outside of the COE.

Standing Update from the Office of Clinical Experiences & Alternative Licensure
Nicole Smith reported that the last round due date for spring/fall Internship I/II applications will be January 11th by 5:00 pm.

The Intern II Seminar meetings by program areas were held January 11, 2016 in MSC Great Rooms with some university supervisors in attendance. All interns are placed.

Intern I Seminar meetings will be held January 15, 2016 in MSC Great Rooms.

An accurate list of students in courses requiring placements is needed for university risk management insurance purposes. This should include practica, Intern I and Intern II students. Students placed in any schools need to be covered by insurance. The insurance is of no cost to the student or program area. Each area was given a list of courses to review and add/delete. These need to be returned to Nicole Smith in OCE/AL before the end of the term.

Pitt County Schools is in need of teachers in particular teaching areas. Dr. Smith will be sending a notice to the program areas in which there is need.

Old Business
Intern II licensure seminars were held December 17, 2015 in Speight 241 and 242. Five sessions were held training students in using the new Online License System implemented by DPI August 1, 2015. Students were given detailed instructions, as well as, accessing the actual website to start their application. All fall 2015 completers will
be using this system. Spring 2016 is a much larger group of undergraduate students. The logistics and location for these meetings will be determined later.

Vivian Covington and Sherry Tripp will be meeting with a large group of MSA students in April to assist in the process. If other graduate program areas/degrees have large groups of students captured at any time late in the semester, we would be happy to come and train those students separately. We will have electronic materials for DE students.

**New Business**

A chart showing UNC Education Program Enrollment by Institutions from fall 2010 through fall 2015 was distributed. At the bachelor’s level, ECU had a 3% decrease in enrollment from 2014 to 2015. Two institutions had increases, which put ECU in fourth place overall of the 15 institutions reported. The master's programs had a 1.5% decrease in enrollment for 2014 to 2015, and 7 institutions had increases, which put ECU in 9th place overall of the 14 institutions reported (UNC-A does not have graduate programs). For 2014-2015, ECU was in 8th place overall in terms of enrollment trends with combined UG and G programs at a 2.5% decrease. Five of the 15 institutions had positive overall growth from 2014 to 2015. For the cumulative 5 years reported, 2010-2015, ECU showed a combined UG and G decrease of 18.6%, placing ECU second overall in terms of enrollment. Typically, at the UG level we see an increase in alternative licensure numbers, when there are decreases in teacher education degree program enrollments.

Clay B. Smith has been hired as the Special Populations Coordinator housed in the Department of Elementary Education and Middle Grades Education. He will be working with recruiting and advising of Alternative Licensure routes, particularly with NCTeach and TFA students.

Dr. Bullock reported on the Co-teaching pilot program, which has been led by faculty in the ELMID for the past four years. The program areas involved in the pilot will be bringing a request to the policy committee of CTE to institutionalize co-teaching as an option for Internship II to be deemed acceptable as the current model is. Oversight of Co-teaching is transitioning to the Office of Educator Preparation, meaning the OCE will facilitate the logistical part of placements and training. University Supervisors, clinical teachers and interns are required to be trained in specific co-teaching strategies, which must be used if this method of co-teaching is adopted by program areas. Christina Tschida, Liz Fogarty, Vivian Covington, Ann Bullock, and Pat Peoples are the trainers and more trainers are needed to move this initiative from pilot to practice. A Train the Trainer workshop is planned for March 18 for prospective trainers, so please share this date with faculty. Certain requirements will be in place for a program area to do co-teaching, if the model is adopted. We will have one co-teaching model, not 19 different ones. Current policy states that 15 consecutive days of full time teaching are required; therefore, part of the request will be to allow Co-teaching to have 10 days of full-time teaching with 5 days solo and the other 5 days may have co-teaching incorporated. The Policy Committee will need to meet to review the proposal when it is sent from the Co-teaching team and make a recommendation to the full CTE. Interested programs need to be fully aware of the forthcoming request and be sure their faculty understand the process and the requirements. Participating program areas will have to have a designated Co-teaching liaison who works with their program area, and with the OCE to assist with trainings for interns and clinical teachers, to disseminate co-teaching information to candidates and partners, and to troubleshoot co-teaching issues within the program area. Any and all research on co-teaching resides with program areas.

The SBE is required to develop and implement digital teaching and learning standards for teachers and school administrators by July 1, 2017. There is significant legislative action facilitating innovation in education and the statewide transition to digital learning. A memo was received from Deborah Goodman of NCDPI's Division of Digital Teaching and Learning requesting a small group of pre-service teachers to meet for approximately one and one-half hours to share a draft and discuss the competencies. The draft is a set of Digital Learning Competencies that align with existing professional standards and also complement the NC Digital Learning Plan efforts. Two to three students per program area would be needed from 3:00-4:30. Pizza and drinks will be provided! Vivian Covington will send an email to CTE reps asking for names of students committed to attend the January 26th session at the Willis Building. There will be an online registration required through the Office of Professional Development and Student Outreach (davisca@ecu.edu; Catrina Davis) to get a head count for the food.
