This is a great experience for learning and challenging skills with a "life-like" session. Enjoy having feedback from peers and being able to pause and get advice.

George was tough but it was a GREAT experience. This was really weird but I liked it. I did not realize how realistic it was. It was really weird but I liked it. I did not realize how realistic it was.

An awesome experience for all students! Helped me feel prepared.

I thought the setup was nice and gave me a chance to see real life scenarios unlike in practicum.

Loved it / Hated it! - was not expecting it to be such a real reaction

Loved it! - Great skill building tool

Challenging but good learning experience

Mursion has prepared for the classroom by allowing me to experience real-life situations! Using Mursion gives you the same feeling that you get in a real classroom!

Interesting.

I felt like the simulation was helpful very up to date and fun. I have not felt like I had this much control over my class in practicums but I did with this one. Can't wait to do it again.

Loved it! - Feedback from peers

Tough

This was a lot different than I thought it would be. It would be really helpful for new and coming up teachers.

Interesting. Therapy Client was tough.

This was a lot of fun! I was very nervous but it went smoothly!
